THE STORY

In this modern tale, the genuine hospitality and the hotel's legacy speak for themselves. The elaborate design incorporating the local architecture and the landscape makes the contemporary hotel a destination in itself. The challenge of bringing the beauty of the natural surroundings into the modern hotel has been masterfully achieved, while an extra touch of comfort and coziness creates the feeling of being at home. Gorgeous rooms and suites with a fresh Cycladic style and luxurious features provide a place of absolute bliss and ultimate summertime serenity.

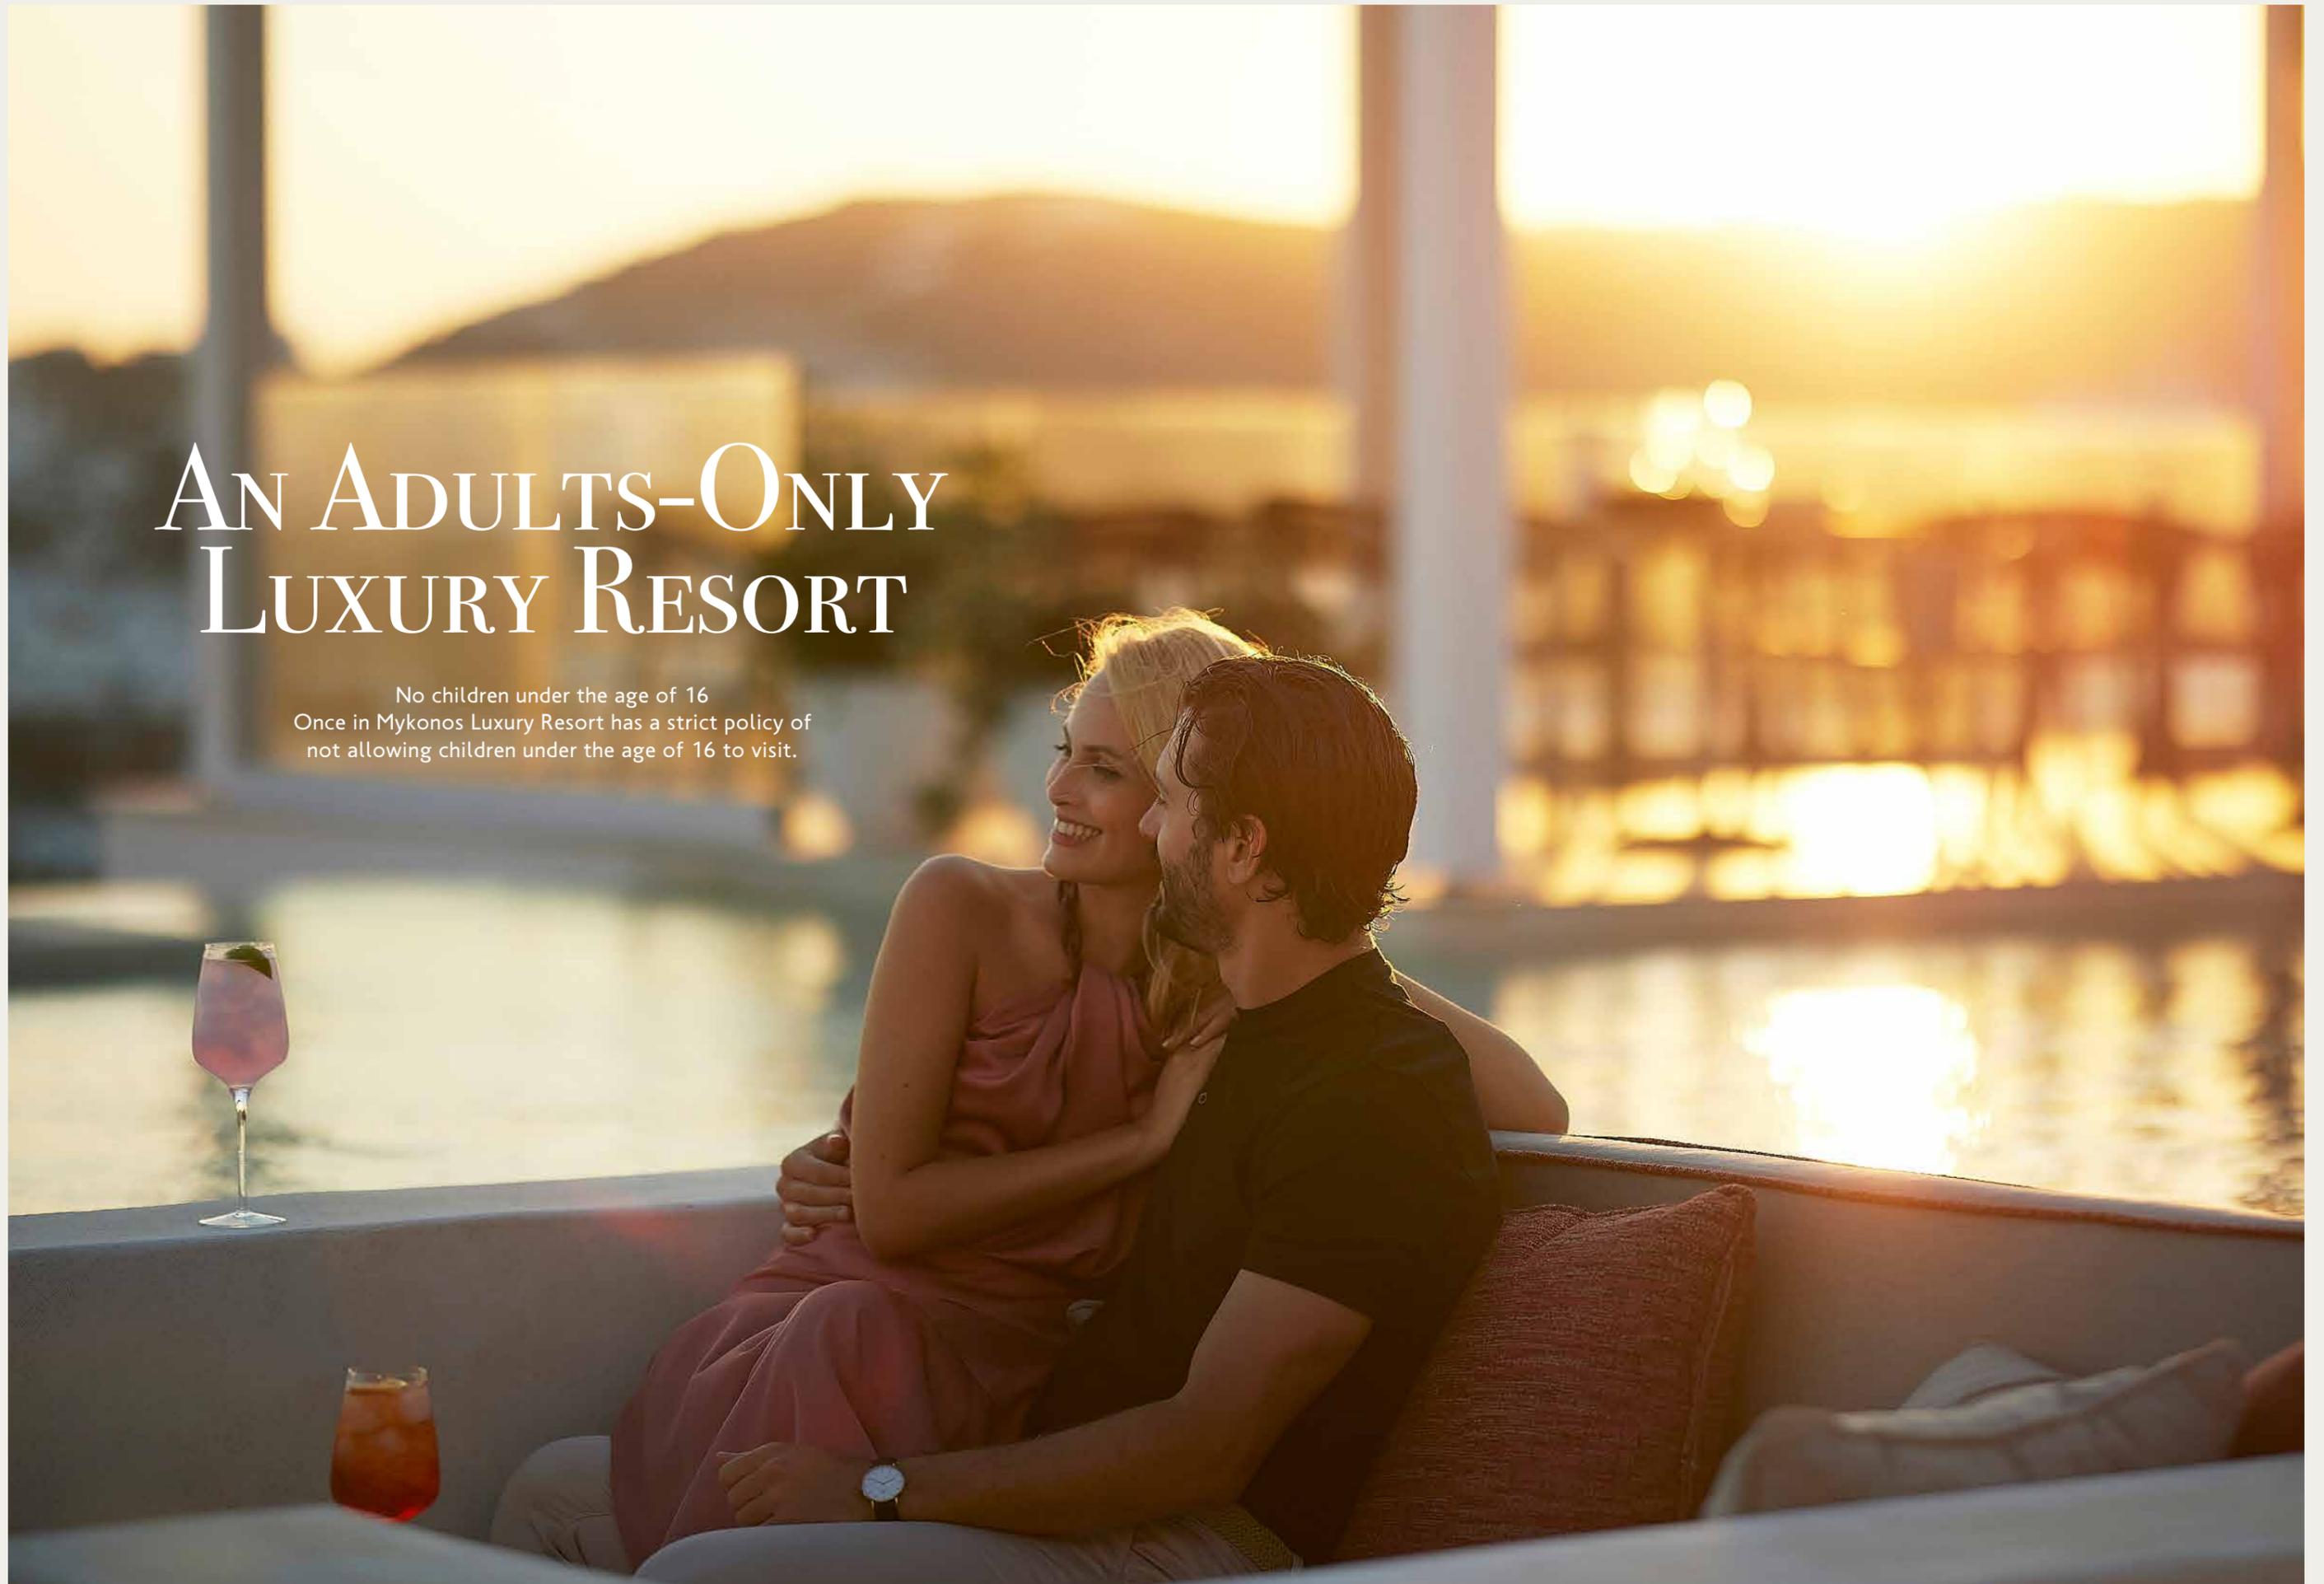

Upon arrival, guests have the opportunity to feel deeply connected with the history and the culture of the place and what it stands for. Once in Mykonos Luxury Resort overlooks Ornos beach, the most famous place among the jet setters, the place to-see and be-seen. Unlock the most immersive experience in island-chic surroundings with breathtaking sea views and make memories that will last forever!

Once in Mykonos' story is an excellent blend of a glorious past and an auspicious future. It describes the evolution of a notable villa back in time when Mykonos first started to be the favorite adventure among artists, intellectuals and influential people from all over the world. And it still is. Following the destiny of the cosmopolitan island, the villa of a prominent businessman who hosted among other famous Greek personalities, the former PM, Konstantinos Karamanlis, Melina Mercouri, Manos Hatzidakis, Mikis Theodorakis, Zoe Laskari, Konstantinos Mitsotakis, Basil and Elise Goulandris, has now been transformed into a luxury hotel for Adults Only aiming at offering them the experience of being treated as treasured friends. It comes as no surprise that it has been named Once in Mykonos, as it revives the history and the glamour of a fairytale that would start with "Once upon a time in Mykonos".

STAR-STUDDDED ISLAND

The profoundly beautiful and always progressive Mykonos Island has appealed to A-list celebrities and those who embrace a glamorous lifestyle. Through the years it has become the ultimate travel destination not only for Greek personas but for the international jet set as well. The marvelous beaches, the picturesque alleys and the famous bars of Little Venice are few of the hot spots that lure artists, singers, fashion designers and businessmen from all over the world to come and visit Mykonos. Yesterday was Jackie Onassis, Brigitte Bardot, Grace Kelly and many others who loved and frequently visited the island. Nowadays, Lady Gaga, Johnny Depp and Jean Paul Gautier are only few of the celebrities that have made Mykonos a granted vacation destination.
